Introduction

My website is all about introducing me to others. The website consists of five pages which are Homepage, My Portfolio, Gallery, About Me and Feedback. The website was built by using HTML, CSS, JavaScript, and Bootstrap. The header is supported by JavaScript, if you are using the phone, there is a button at the top right of my website that allows the header to be visible after the button is clicked and it will disappear if we click (X) button. I also included the Facebook and Instagram buttons as hyperlinks in the header.

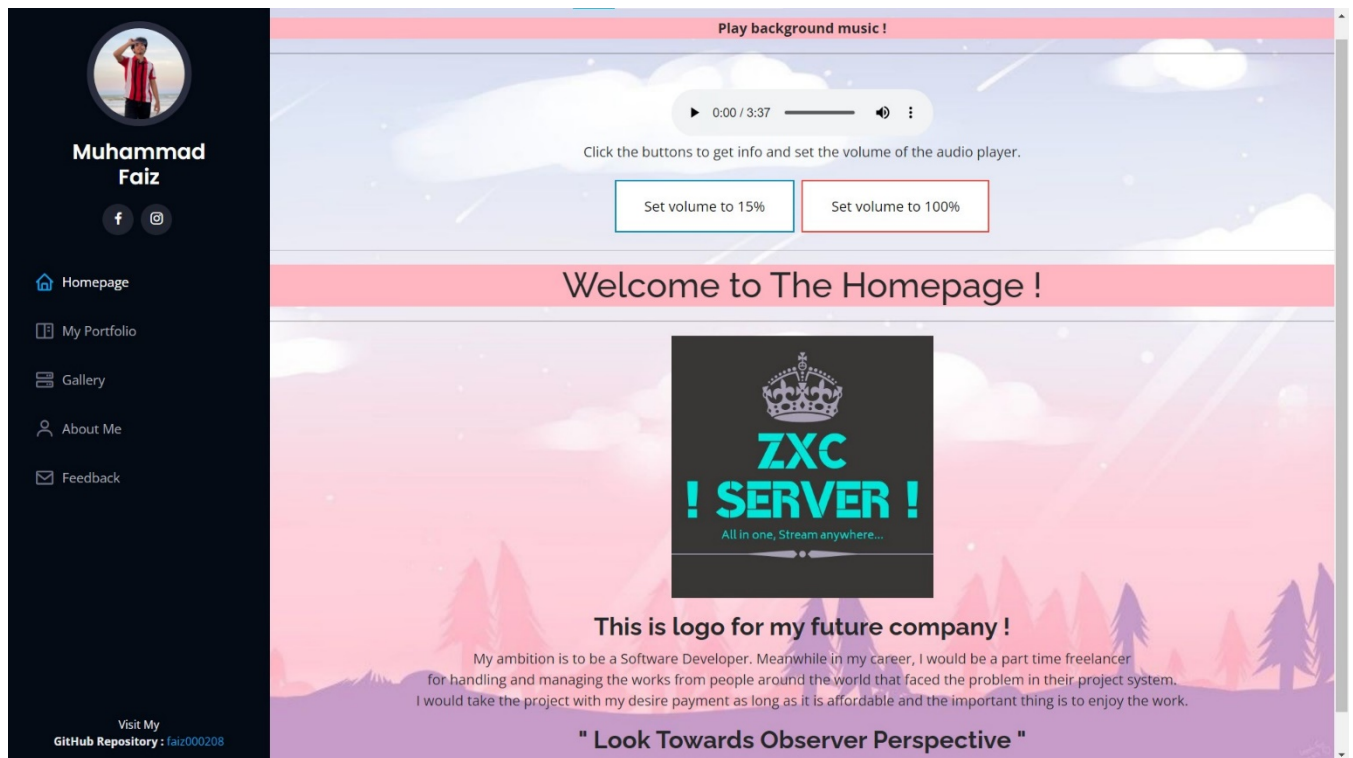

For the Homepage, I have inserted the audio player to be played as a background music while there are two buttons which are functioning as volume setters. I can control the volume by pressing the button whether 15% volume or 100% volume. The buttons were made by using Js function. I also insert some description and image about my future company. For the My Portfolio page, I include a lot of JavaScript functions such as the role of my works being animated by "typed" function using Js. An animation of my profile picture and my information will move after I scroll down to the About section. On the "facts section", I also use pure counter by using Js as a counting animation. I also made an animation for the progress bar on the "Skills section" using Js. I also make the Bootstrap icon of the items in the "Service" section become faded if we hover the cursor onto it using Js. All the design in all pages were neatly supported by CSS.

For the Gallery page, I have inserted six images and three video players to be played and viewed if the user visits the site. The description font was supported by CSS. For the About Me page, the tables were made by HTML alongside CSS to make it nice and neat. I also insert the Instagram logo as an image-hyperlink in the footer. For the Feedback page, I made a feedback section that allows the user to give their feedback about my website (it will not work for now as I didn't apply the PHP yet). The icons of location, email and call will be faded if we hover the cursor onto it. This is applied by using Js and icons from Bootstrap. I also insert an IFrame of a map which located where my whereabouts. This will allow user to view the specific location of where I located. It was made by HTML. The feedback form consists of name, email, subject, message and submit button. I also insert an arrow up button at the bottom right of the website to allow us to go to the top of the website. It was built by using Js and it will be available in each page.

My Portfolio 1

My Portfolio 2

The screenshot shows a web application for 'Muhammad Faiz'. On the left is a dark sidebar with a circular profile picture, social media icons for Facebook and Instagram, and a navigation menu with links: 'Homepage', 'My Portfolio' (active), 'Gallery', 'About Me', and 'Feedback'. At the bottom of the sidebar is a link to 'Visit My GitHub Repository : faiz000208'. The main content area has a pink header titled 'About'. Below the header, it says 'Introducing my information for you. I'am Faiz as a developer would give you some thing that may you didn't know yet. You are pleased to gain info from here !'. There is a large image of a man in a red and white striped shirt. To the right of the image is the title 'Software Developer & Web Developer.' followed by the text 'Here's some of my info for the portfolio.' Below this is a list of personal details in two columns: Birthday (8 February 2000), Age (21), Website (faiz000208.github.io), Education (Degree), Phone (+60-116000208), Email (faiz000208@zxcserver.my), City (Kota Bharu, Kelantan), and Freelance (Available). At the bottom of the main area is a paragraph: 'I'm the one and only that could do sort of things that people may not know yet to apply the method. You can hire me whenever you want to with affordable fee for a project that need to be done in such a short time. I'm glad to know you whenever you are now !'. A blue upward arrow icon is in the bottom right corner.

About

Introducing my information for you. I'am Faiz as a developer would give you some thing that may you didn't know yet. You are pleased to gain info from here !

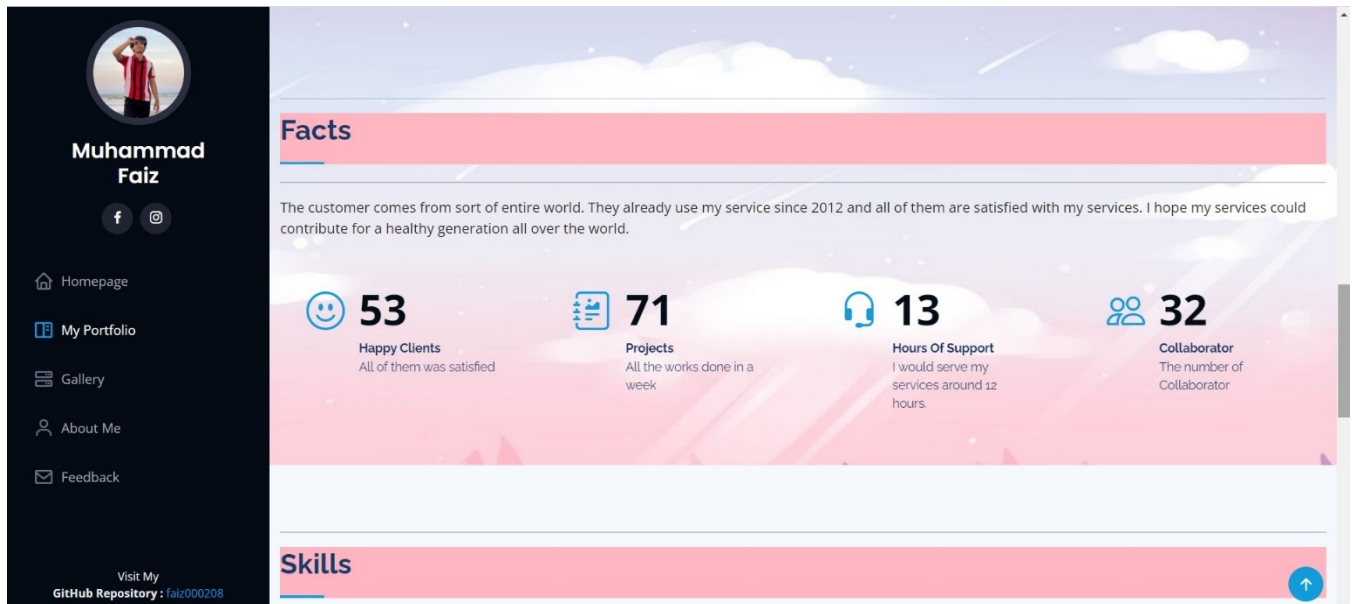

Software Developer & Web Developer.

Here's some of my info for the portfolio.

- > Birthday: 8 February 2000
- > Age: 21
- > Website: faiz000208.github.io
- > Education: Degree
- > Phone: +60-116000208
- > Email: faiz000208@zxcserver.my
- > City: Kota Bharu, Kelantan
- > Freelance: Available

I'm the one and only that could do sort of things that people may not know yet to apply the method. You can hire me whenever you want to with affordable fee for a project that need to be done in such a short time. I'm glad to know you whenever you are now !

My Portfolio 3

The screenshot shows a web application for 'Muhammad Faiz'. On the left is a dark sidebar with a circular profile picture, social media icons for Facebook and Instagram, and a navigation menu with links: 'Homepage', 'My Portfolio' (active), 'Gallery', 'About Me', and 'Feedback'. At the bottom of the sidebar is a link to 'Visit My GitHub Repository : faiz000208'. The main content area has a pink header titled 'Facts'. Below the header, it says 'The customer comes from sort of entire world. They already use my service since 2012 and all of them are satisfied with my services. I hope my services could contribute for a healthy generation all over the world.' Below this is a row of four statistics: '53 Happy Clients' (All of them was satisfied), '71 Projects' (All the works done in a week), '13 Hours Of Support' (I would serve my services around 12 hours), and '32 Collaborator' (The number of Collaborator). Below the statistics is a pink header titled 'Skills'. A blue upward arrow icon is in the bottom right corner.

Himpunan Video Makanan

This is my favourite choco moist cake that I ever taste in my life. Everything is good.

This is one of my favourite Petite Bar that usually eat it when I feels bored.

This is Choco Milky. I usually eat it when I had to burn my midnight oil.
